Location: Pretoria east, Gauteng, South Africa

Languages: English, Sepedi, Tswana, Zulu

Professional Summary

Web Developer with over **2 years and 9 months** of experience specialising in frontend development using **Angular (v18+)**, **Vue 3**, and **Ionic** with **Tailwind CSS**. Skilled in building responsive, user-friendly interfaces and integrating them with backend services using **C#**, **SQL**, **ASP.NET** and **RESTful APIs**. Experienced in working independently and collaboratively on large-scale projects, solving complex problems, and delivering production-ready web applications.

Key Competencies

Technical Skills

- Frontend: Angular (v18+), Vue 3, Ionic, Tailwind CSS, SCSS, TypeScript, JavaScript
- Backend: C#, ASP.NET, RESTful APIs (Axios, JWT)
- Database: SQL Server, T-SQL
- Tools: Vite, Cypress, Jasmine, ESLint, Git, GitHub, Azure DevOps
- Other: Angular Material, Chart.js, Vue Chart.js, PDF generation tools (html2pdf.js, jsPDF, xlsx)

Soft Skills

- Leadership & Initiative
- Collaboration & Teamwork
- Problem-Solving & Analytical Thinking
- Time Management & Adaptability
- Communication & Knowledge Sharing

Professional Experience

Junior Web Developer, Simulated Training Solutions

April 2024 - Present

- Led the upgrade of a large production system from Angular v15 to v18 and updated Ionic, resolving complex compatibility issues across modules.
- Built scalable features using Angular (v18+), C#, and Tailwind CSS, focusing on performance and responsiveness.
- Integrated RESTful APIs using Axios and JWT authentication.
- Supported onboarding of new interns by assigning tasks, reviewing work, and guiding them through the codebase.
- Took ownership of solo projects, working end-to-end from design to deployment.
- Improved backend logic and optimised SQL queries in collaboration with senior developers.

- Gained full-stack experience building features and fixing bugs on production applications.
- Worked with Angular, C#, and SQL to improve platform functionality and user engagement.
- Collaborated with senior developers to understand architectural decisions and best practices.
- Delivered feature demos and project updates to stakeholders, improving communication and presentation skills.
- Recognized with a Certificate of Excellence for performance and growth.

Projects

Reports System

- Tech Stack: Vue 3, Tailwind CSS, Axios, Chart.js, jsPDF
- Built an internal reporting system from the ground up using Vue 3 and Tailwind CSS. Designed a clean UI, integrated REST APIs, handled PDF/Excel export, and implemented chart visualisations. Project involved complex logic, multiple modules, and full independence from planning to deployment.

System Upgrade Initiative

- Tech Stack: Angular (v15→18), Ionic, TypeScript
- Led the upgrade of a large-scale enterprise app from Angular 15 to 18 and updated Ionic. Identified and resolved numerous framework-breaking issues, modernised the codebase, and improved long-term maintainability.
